Objective

Eager to apply technical expertise and problem-solving skills to build scalable, real-world web applications.

Education

Bachelor of Technology (B.Tech) in Computer Science and Engineering(AIML) Aug 2023-27
Noida Institute of Engineering and Technology
Relevant Coursework: Operating Systems, DBMS, Computer Networks, Web Technologies

Intermediate Education Jul 2021 – May 2022
RPIC (Ram Pyare Intermediate College), UP Board
Percentage: 76%

SSC (Class X) Jun 2019 – Apr 2020
(St. Joseph's Senior Secondary School)
Percentage: 62%

Projects

Academic Web Application Project GitHub

- Designed and developed a dynamic web application using **Java** with a focus on clean architecture and object-oriented principles.
- Built responsive, user-friendly interfaces using **React.js, HTML, and CSS**, emphasizing usability and modern UI practices.
- Implemented reusable React components and managed application state for smooth user interaction.
- Applied problem-solving skills, debugging, and best coding practices to deliver a scalable and maintainable application.
- **Technologies Used:** Java, React.js, HTML, CSS

Technical Skills

Programming Languages	Python, C
Web Technologies	HTML, CSS
Databases	MySQL, MongoDB
Tools	Git, GitHub, VS Code
Concepts	Data Structures and Algorithm, DBMS

Certifications

- Python Programming – Infosys Springboard
- Data Structures and Algorithms in Java – Infosys Springboard

Extra-Curricular Activities

- Gained hands-on experience in **AWS Cloud Computing**, working with core services such as compute, storage, and networking.
- Developed practical skills in **virtualization concepts**, including virtual machines, resource management, and deployment environments.
- Explored **machine learning fundamentals**, focusing on data preprocessing, model training, and basic evaluation techniques.
- Enhanced analytical thinking and technical problem-solving skills through continuous learning.
